

Join the Fossil Fuel DIVESTMENT MOVEMENT

» WHEN YOU INVEST IN FOSSIL FUELS YOU:

Help enrich corporations that are wrecking the planet:

In 2014, the top five oil companies made

\$89.7 billion

in profits — that's \$245 million per day!

SOURCE: CENTER FOR AMERICAN PROGRESS

Further entrench a fossil fuel-based economy:

The market value of the 200 publicly-traded companies with the largest fossil fuel reserves totaled approximately \$4 trillion at the end of 2012.

 **16%** were coal companies AND  **84%** were oil and gas.

Up to \$647 billion is spent each year finding more reserves.

» HOW TO GET STARTED:

Visit www.GreenAmerica.org/fossilfree for the resources you need to divest from fossil fuel companies & reinvest in clean energy:

- Mutual Funds
- Exchange Traded Funds
- Certificates of Deposit
- Financial Advisors & Planners
- Asset Management Firms
- Retirement Options

» WHY YOU NEED TO DIVEST:

Keep carbon in the ground:

To keep global warming below 2°C/ 3.6°F, a target that the United States and nearly every other country has agreed to, the International Energy Agency calculates that the fossil fuel industry will need to leave approximately

80% of their reserves of coal, oil, and gas unburned.

SOURCE: IEA

2°C/
3.6°F

Investment needed in clean energy:

 Global investment in clean energy reached a record \$310 billion in 2014. However, we need to invest more than \$1 trillion per year in clean energy to keep global warming below 2°C.
